Shriners Hospitals
for Children™

About Us

Shriners Hospitals for Children® is a health care system of 22 hospitals dedicated to improving the lives of children by providing specialty pediatric care, innovative research and outstanding teaching programs. Every year, Shriners Hospitals for Children® provides care for thousands of kids with orthopaedic conditions, burns, spinal cord injuries, and cleft lip and palate, in a family-centered environment, regardless of the patient's ability to pay. It's how Shriners Hospitals for Children® has been Changing the World through Caring for Kids since 1922.

Eligibility

Children up to age 18 are eligible for care at Shriners Hospitals for Children[®], if, in the opinion of our physicians, there is a reasonable possibility they can benefit from the specialized services available. Admission is based solely on a child's medical needs. A family's income or insurance status are not criteria for a child's acceptance as a patient. There is no charge for services provided within Shriners Hospitals for Children[®] facilities.

Orthopaedic Care

Shriners Hospitals for Children[®] has been a leader in pediatric orthopaedic care since 1922. The hospitals specializing in orthopaedics are dedicated to providing medical and rehabilitative services to children with congenital deformities, problems resulting from orthopaedic injuries and diseases of the musculoskeletal system.

Burn Care

The Shriners Hospitals for Children[®] specializing in burns have been leaders in burn care and research since opening in the mid-1960s. Treatment is provided for burn injuries and related scarring, along with physical and emotional rehabilitation.

Spinal Cord Injury Rehabilitation

In the early 1980s, Shriners Hospitals for Children[®] opened the nation's first spinal cord injury rehabilitation centers specifically designed for kids. There, patients find a complete range of services needed in order to recover to the fullest extent possible.

Cleft Lip and Palate Care

Cleft lip and palate was added to the health care system's treatment disciplines in 2005. Services available at Shriners Hospitals for Children[®] fill the need for coordinated, comprehensive multidisciplinary care for children with this condition.

Research

Shriners Hospitals for Children[®] is dedicated to conducting innovative research to provide answers to complex medical difficulties affecting children. Shriners Hospitals for Children[®]'s contributions to the medical community not only benefit our patients, but contribute to the overall body of medical knowledge for the care and treatment for a wide range of pediatric and adult conditions worldwide.

Education

Shriners Hospitals for Children[®] is proud of its role in medical education. In the past 20 years, more than 8,000 physicians have received residency education or postgraduate fellowship within the health care system. By maintaining relationships with more than 60 medical teaching facilities worldwide, Shriners Hospitals for Children[®] fosters an academic environment committed to providing high-quality medical care to all patients.

Please make an appointment to attend our Application (eligibility) Screening by calling (303) 455-3470, Monday thru Friday between 9 and 5.

Screenings are held at 1:00pm on the first Wednesday of each month at El Jebel Shriners, 4625 West 50th Avenue in Denver, 80212, and in other cities in Northern Colorado throughout the year.
